About sharing hope society

What We Stand For

We are 5 students from ESCP Europe coming from Italy, France, Germany, Russia and Madagascar ; we created this charity student society in order to connect students to Fondazione Francesca Rava - NPH Italy and NPH UK.

Our aim is to create a network of students who are interested in helping others and particularly people in need.

In fact, we decided to organise a student event in order to raise funds to finance a project in Haiti. Another project that we have achieved is that we organised a humanitarian project that we selected students to Haiti in order to see the impact of the project.
